Optimize your surgical outcomes with state-of-the-art devices

Comprehensive Vision Analysis and Assessment
Refractive Power / Corneal Analyzer
OPD-Scan III
-Pre and post operative cataract assessment

Minimized risk of post-op complications through enhanced lens design
Pre-loaded IOL Injection System
SZ-1 / SZ-1C
-Stable lens material with double-polymerization

VR combined with cataract surgery in a single surgical system
Ophthalmic surgical system
Fortas™ CV-30000
-Fortas pump, refined peristaltic pump, for surgical efficiency

Lunch Symposium
13:00-14:00, Saturday 4th March
@ Suntec - Room Nicol 1, Level 3
Revolutionizing your cataract and vitreoretinal surgical practice with OPD-Scan III, SZ-1 IOL, and Fortas CV-30000 Phaco-Vitrectomy system
Moderator / Speaker  Damien Gatine, MD
Speaker  Cordelia Chan, MD
Speaker  Yusuke Oshima, MD, PhD

The multimodality era has arrived for Retina and Glaucoma!

Multimodal imaging
NEW
Evaluate retinal structure and function by the precise overlay and registration of OCT and Microperimetry.

*NAVIS-EX is standard software included in the RS-3000 Advance OCT and MP-3 Microperimeter.*
## Exhibit lineup

<table>
<thead>
<tr>
<th>Product</th>
<th>Description</th>
